

ECOTUMN 2024

Exploring the Legacy and
Future of Mountain Biodiversity :

A scientific autumn school to understand mountain ecosystems with an ecological approach.

Grenoble Alps University campus, 4-8 November 2024

Embark on a scientific journey to the heart of mountain ecology with ECOTUMN, a self-organized research school for PhD students interested in the study of mountain ecosystems.

Join our theme week to explore the **origin of mountain biodiversity**, its evolution due to **climatic variation** and human **land use**, and how ecology informs **conservation**. The program features lectures by experts from France and Europe in fields as diverse as **paleoenvironments**, **functional ecology**, **ecotoxicology** and **population genetics** all focused on mountain ecosystems.

Free of charges, excluding travel and accomodation expenses

Registration form : <https://forms.gle/VnfzVxqwztVzAmeN8>
